## 0 Motivation

- *Proof-Based Math Readings* is a free and independent online reading group where we study mathematics required in economics master's/PhD programs using an intuitive approach.
- This session of the reading group is on *Statistics*.

## 1 Prerequisites

- CGPA: 3.00/4.00.
- [Introduction to Probability - Dimitri P. Bertsekas, John N. Tsitsiklis \(2nd Edition, 2008, Summary Material\)](#)
- [Introduction to Probability - Dimitri P. Bertsekas, John N. Tsitsiklis \(2nd Edition, 2008, Playlist\)](#)
- [Introduction to Probability - Dimitri P. Bertsekas, John N. Tsitsiklis \(2nd Edition, 2008, Solutions & Errata\)](#)
- Please use the [🔗 Application Form](#) to join our reading group; you will receive a response within a week.

## 2 Format

- This session takes 12 weeks. We do not have face-to-face/online meetings due to the size of the group.
- We discuss the topics and exercises at [🔊 Proof-Based Math Readings \[Discord\]](#).
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

## 3 Resources

### 3.1 Main Book and Main Book's Playlist

**Statistical Inference - George Casella, Roger Berger (2nd Edition, 2001 or 2024)** is our main book because it is well-written and well-structured. The 2024 version is an errata-free reprint of the 2001 version.
