0 Motivation

- *Proof-Based Math Readings* is a free and independent online reading group where we study mathematics required in economics master's/PhD programs using an intuitive approach.
- This session of the reading group is on *Topology*.

1 Prerequisites

- CGPA: 3.00/4.00 and Proof and Real Analysis books/playlists listed below.
- Please use our  [Application Form](#) to join our reading group anytime.
- People who applied will be informed about their application results via email within a week.

2 Format

- This session will last 10 weeks from 15 January 2024 to 24 March 2024.
- We will discuss the topics/exercises that we struggle with at  [Proof-Based Math Readings \[Discord\]](#).
- We will not have face-to-face/online meetings due to the size of the group.
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

3 Resources

3.1 Main Book and Main Book's Playlist

Topology (2nd Edition, 2014) by James Munkres is our main book for this session because it is well-written, well-structured, and has plenty of intuitive figures.

Bruno Zimmermann's playlist is our main playlist because its narrative is just great.

-  [Topology - James Munkres \(2nd Edition, 2014\)](#)
-  [Topology - James Munkres \(2nd Edition, 2014, Companion playlist by Bruno Zimmermann, Video 1-15\)](#)
-  [Topology - James Munkres \(2nd Edition, 2014, Solutions for Chapter 1-2 by Dan Whitman\)](#)

3.2 Supplementary

3.2.1 Topology

We use **Schaum's Outline of General Topology** for exercises because it has solutions for all 391 exercises.

-  [Schaum's Outline of General Topology - Seymour Lipschutz \(2011\)](#) → Beginner friendly
-  [Topology Without Tears - Sidney A. Morris \(2023\)](#) → Beginner friendly and open-access
-  [General Topology - Bernard Badzioch \(2022\)](#)
-  [Topology - Marius Furter \(2022\)](#)
-  [Mathematical Proofs A Transition to Advanced Mathematics - Gary Chartrand, Albert D. Polimeni, Ping Zhang \(Chapter 19: Proofs in Topology, 4th Edition, 2018\) and Odd-Numbered Exercise Solutions](#)

3.2.2 Proof
