## 0 Motivation

- *Proof-Based Math Readings* is an independent online reading group.
- The goal of the reading group is to understand mathematical concepts required in the economics master's/PhD programs with an intuitive approach.
- This first session of the reading group is on *Proof Techniques*.

## 1 Prerequisites

- CGPA: 3.00/4.00
- Please apply by uploading your CV and transcript to this  [Google Form](#) until 23:59, 04 June 2023. Please upload your CV and transcript as **NameSurname.pdf**, not **CV.pdf**. Students who applied will be informed about their application result via email at 10:00, 06 June 2023.

## 2 Format

- This session will last 5 weeks from 12 June 2023 to 16 July 2023.
- We will discuss the topics/exercises that we struggle with at  [Proof-Based Math Readings \[Discord\]](#).
- We will not have face-to-face/online meetings due to size of the group.
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

## 3 Resources [All are open-access]

### 3.1 Main Book and Main Book's Playlist

Book of Proof by Richard Hammack is our main book because it is a well-structured pedagogical masterpiece. It is also free and provides detailed solutions for odd-numbered exercises at the end of the book.

Jeremy Teitelbaum's playlist on Book of Proof is our main playlist because his narrative is just great.

 [Book of Proof - Richard Hammack \(3.3 Edition, 2022\)](#)

 [Book of Proof - Richard Hammack \(3.3 Edition, 2022, Playlist to main book, Jeremy Teitelbaum\)](#)

### 3.2 Supplementary

#### 3.2.1 Proof

In case we need to watch a proof topic from another instructor, we have 2 additional companion playlists. Because our main playlist does not cover Chapter 13-14, we will cover these chapters from Penn's playlist.

 [Book of Proof - Richard Hammack \(3.3 Edition, 2022, Companion playlist by Michael Penn, Ch 1-14\)](#)

 [Book of Proof - Richard Hammack \(3.3 Edition, 2022, Companion playlist by Valerie Hower, Exams\)](#)

 [Book of Proof - Richard Hammack \(3.3 Edition, 2022, Companion workbook by Justin Wright\)](#)

#### 3.2.2 Calculus

In case we need to remember a topic from calculus, we can use these playlists.

 [Essence of Calculus - 3Blue1Brown \(2023\)](#)

  [Single Variable Calculus - David Jerison \(2006\)](#)

  [Multi Variable Calculus - Denis Auroux \(2007\)](#)

## 4 Reading Schedule

I recommend this study routine:

- 1) We read the chapter from the main book.
- 2) We watch the main playlist of the chapter.
- 3) We solve odd-numbered exercises and check their solutions at the end of the main book.
- 4) We solve even-numbered exercises.
- 5) If we cannot solve/understand an exercise, we can discuss the exercise in our Discord server.
- 6) We move on to the next chapter of the book.

### Week 01

📅 12 June - 18 June

- 📖 Book of Proof, Chapter 1: Sets
- 📖 Book of Proof, Chapter 2: Logic
- 📖 Book of Proof, Chapter 3: Counting

### Week 02

📅 19 June - 25 June

- 📖 Book of Proof, Chapter 4: Direct Proof
- 📖 Book of Proof, Chapter 5: Contrapositive Proof
- 📖 Book of Proof, Chapter 6: Proof by Contradiction

### Week 03

📅 26 June - 02 July

- 📖 Book of Proof, Chapter 7: Proving Non-Conditional Statements
- 📖 Book of Proof, Chapter 8: Proofs Involving Sets
- 📖 Book of Proof, Chapter 9: Disproof
- 📖 Book of Proof, Chapter 10: Mathematical Induction

### Week 04

📅 03 July - 09 July

- 📖 Book of Proof, Chapter 11: Relations
- 📖 Book of Proof, Chapter 12: Functions

### Week 05

📅 10 July - 16 July

- 📖 Book of Proof, Chapter 14: Cardinality of Sets
- 📖 Book of Proof, Chapter 13: Proofs in Calculus

## 5 The Next Session After This One

**Real Analysis:** [Application Deadline 23:59, 28 July 2023 via [🔗 Google Form](#)]

- 📖 [Basic Analysis I: Introduction to Real Analysis \[Volume I\] - Jiri Lebl \(Version 6.0, 2023\)](#)
- 📺 [Real Analysis - Casey Rodriguez \(2020, Companion playlist to the main real analysis book\)](#)

If you are admitted to *Proof Techniques* session, you do not have to apply for *Real Analysis* session again. In other words, you can directly join *Real Analysis* session if you wish.
