0 Motivation

- *Proof-Based Math Readings* is a free and independent online reading group where we study mathematics required in economics master's/PhD programs using an intuitive approach.
- This session of the reading group is on *Linear Algebra*.

1 Prerequisites

- CGPA: 3.00/4.00
-  [Book of Proof - Richard Hammack \(3.3 Edition, 2022\)](#)
-  [Linear Algebra - Gilbert Strang \(2005\)](#)
- Please use our  [Application Form](#) to join our reading group anytime.
- People who applied will be informed about their application results within a week.

2 Format

- This session will last 12 weeks from 25 March 2024 to 16 June 2024.
- We will discuss the topics/exercises that we struggle with at  [Proof-Based Math Readings \[Discord\]](#).
- We will not have face-to-face/online meetings due to the size of the group.
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

3 Resources [All are open-access]

3.1 Main Book and Main Book's Playlist

Linear Algebra Done Right by Sheldon Axler is our main book for this session because it is well-written, well-structured, open-access, and -most importantly- the author's cat is on the cover photo of the playlist.

-  [Linear Algebra Done Right - Sheldon Axler \(4th Edition, 2023, Forthcoming\)](#)
-  [Linear Algebra Done Right - Sheldon Axler \(3rd Edition, 2015, Companion playlist to the book\)](#)
