## 0 Motivation

- *Proof-Based Math Readings* is a free and independent online reading group where we study mathematics required in economics master's/PhD programs using an intuitive approach.
- This session of the reading group is on *Real Analysis*.

## 1 Prerequisites

- CGPA: 3.00/4.00.
- Proof resources below are the prerequisites for this session.
- Please use the  **Application Form** to join our reading group anytime.
- Applicants are informed about their application results within a week via email.

## 2 Format

- This session takes 12 weeks.
- We discuss the topics/exercises that we struggle with at  **Proof-Based Math Readings [Discord]**.
- We do not have face-to-face/online meetings due to the size of the group.
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

## 3 Resources [All are open-access]

### 3.1 Main Book and Main Book's Playlist

**Basic Analysis I: Introduction to Real Analysis [Volume I]** by Jiri Lebl is our main book for this session because it is well-written, well-structured, and open-access.

Casey Rodriguez's playlist is our main playlist because his narrative is just great.

 **Basic Analysis I: Introduction to Real Analysis [Volume I] - Jiri Lebl (Version 6.0, 2023)**

 **Real Analysis - Casey Rodriguez (2020, Companion playlist to the main book)**

 **Real Analysis - Casey Rodriguez (2020, Companion notes to the main book)**

### 3.2 Supplementary

#### 3.2.1 Real Analysis

 **Real Analysis - Michael Penn (2021)**

 **Real Analysis - Wrath of Math (2023)**

 **Understanding Analysis - Stephen Abbott (2nd Edition 2016, Playlist by Marc Renault)**

 **Understanding Analysis - Stephen Abbott (2nd Edition 2016, Solutions by Ulisse Mini, Jesse Liby)**

 **Introduction To Metric Spaces - Paige Bright (2023)**

#### 3.2.2 Calculus

 **Essence of Calculus - 3Blue1Brown (2023)**

  **Single Variable Calculus - David Jerison (2006) and Multi Variable Calculus - Denis Auroux (2007)**

 **Sequences and Series Calculator - Geogebra and Function Graph - Geogebra**

#### 3.2.3 Proof

 **Book of Proof - Richard Hammack (3.3 Edition, 2022)**

 **Book of Proof - Richard Hammack (3.3 Edition, 2022, Companion playlist by Jeremy Teitelbaum, Chapter 1-12)**

 **Book of Proof - Richard Hammack (3.3 Edition, 2022, Companion playlist by Michael Penn, Chapter 1-14)**

## 4 Reading Schedule

- **BAI** is Basic Analysis I: Introduction to Real Analysis [Volume I] - Jiri Lebl (Version 6.0, 2023).
- We use Understanding Analysis - Stephen Abbott (2nd Edition 2016, Solutions) for exercises.

### **BAI, Chapter 0: Introduction**

**Week 01** 

List of Notation (Page 309-312)

**0.1** About this book

**0.2** About analysis

**0.3** Basic set theory

### **BAI, Chapter 1: Real Numbers**

**Week 02** 

**1.1** Basic properties

**1.2** The set of real numbers

**1.3** Absolute value and bounded functions

**1.4** Intervals and the size of  $\mathbb{R}$

### **BAI, Chapter 2: Sequence and Series**

**Week 03-04-05** 

**2.1** Sequences and limits

**2.2** Facts about limits of sequences

**2.3** Limit superior, limit inferior, and Bolzano-Weierstrass

**2.4** Cauchy sequences

**2.5** Series

### **BAI, Chapter 3: Continuous Functions**

**Week 06-07-08** 

**3.1** Limits of functions

**3.2** Continuous functions

**3.3** Extreme and intermediate value theorems

**3.4** Uniform continuity

### **BAI, Chapter 4: The Derivative**

**Week 09-10** 

**4.1** The derivative

**4.2** Mean value theorem

**4.3** Taylor's theorem

### **BAI, Chapter 5: The Riemann Integral**

**Week 11-12** 

**5.1** The Riemann integral

**5.2** Properties of the integral

**5.3** Fundamental theorem of calculus
