## 0 Motivation

- *Proof-Based Math Readings* is a free, independent online reading group where we study the mathematics required for economics master's and PhD programs through an intuitive approach. Active since May 2023.
- This session of the reading group is on *Real Analysis*.

## 1 Prerequisites and Format

- Proof Techniques resources below.
- Please use the  **Application Form** to join our reading group; you will receive a response within a week.
- This session takes 12 weeks. We do not have face-to-face/online meetings due to the size of the group.
- Members read the main book and discuss the topics/exercises in the Proof-Based Math Readings Discord .

## 2 Resources [All are open-access]

### 2.1 Main Book and Main Book's Playlist

**Basic Analysis I: Introduction to Real Analysis - Jiri Lebl (Version 6.2, 2025)** is our main book for this session because it is well-written, well-structured, and open-access.

Casey Rodriguez's playlist is our main playlist because his narrative is great.

-  **Basic Analysis I: Introduction to Real Analysis - Jiri Lebl (Version 6.2, 2025)**
-  **Basic Analysis I: Introduction to Real Analysis - Jiri Lebl (Version 6.2, 2025, Playlist by Casey Rodriguez)**
-  **Basic Analysis I: Introduction to Real Analysis - Jiri Lebl (Version 6.2, 2025, Notes by Casey Rodriguez)**

### 2.2 Supplementary

#### 2.2.1 Real Analysis

-  **Real Analysis - Wrath of Math (2025)** → Start with this playlist if you find the main book challenging
-  **Real Analysis - Michael Penn (2021)**
-  **Understanding Analysis - Stephen Abbott (2nd Edition, 2016, Playlist by Marc Renault)**
-  **Understanding Analysis - Stephen Abbott (2nd Edition, 2016, Solutions by Ulisse Mini, Jesse Liby)**

#### 2.2.2 Calculus

-  **Essence of Calculus - 3Blue1Brown (2023)**
-   **Single Variable Calculus - David Jerison (2006) and Multivariable Calculus - Denis Auroux (2007)**
-  **Sequences and Series Calculator - Geogebra**
-  **Function Graph - Geogebra**

#### 2.2.3 Proof Techniques

-  **Book of Proof - Richard Hammack (3.4 Edition, 2025)**
-  **Book of Proof - Richard Hammack (3.4 Edition, 2025, Playlist by Jeremy Teitelbaum, Chapters 1-12)**
-  **Book of Proof - Richard Hammack (3.4 Edition, 2025, Playlist by Michael Penn, Chapters 1-14)**

### 3 Reading Schedule

- **BAI** is the abbreviation of Basic Analysis I: Introduction to Real Analysis - Jiri Lebl (Version 6.2, 2025).

#### **BAI, Chapter 0: Introduction**

**Week 01** 

List of Notation (Page 309-312)

**0.1** About this book

**0.2** About analysis

**0.3** Basic set theory

#### **BAI, Chapter 1: Real Numbers**

**Week 02** 

**1.1** Basic properties

**1.2** The set of real numbers

**1.3** Absolute value and bounded functions

**1.4** Intervals and the size of  $\mathbb{R}$

#### **BAI, Chapter 2: Sequence and Series**

**Week 03-04-05** 

**2.1** Sequences and limits

**2.2** Facts about limits of sequences

**2.3** Limit superior, limit inferior, and Bolzano-Weierstrass

**2.4** Cauchy sequences

**2.5** Series

#### **BAI, Chapter 3: Continuous Functions**

**Week 06-07-08** 

**3.1** Limits of functions

**3.2** Continuous functions

**3.3** Extreme and intermediate value theorems

**3.4** Uniform continuity

#### **BAI, Chapter 4: The Derivative**

**Week 09-10** 

**4.1** The derivative

**4.2** Mean value theorem

**4.3** Taylor's theorem

#### **BAI, Chapter 5: The Riemann Integral**

**Week 11-12** 

**5.1** The Riemann integral

**5.2** Properties of the integral

**5.3** Fundamental theorem of calculus

### 4 Further Readings (Optional)

-  [Introduction To Metric Spaces - Paige Bright \(2023\)](#)
