# 0 Motivation

- *Proof-Based Math Readings* is a free, independent online reading group where we study the mathematics required for economics master's and PhD programs through an intuitive approach. Active since May 2023.
- This session of the reading group is on *Bayesian Statistics*.

# 1 Prerequisites

- Proof Techniques and Statistics resources below.
- Please use the [Application Form](#) to join our reading group; you will receive a response within a week.

# 2 Format

- This session takes 12 weeks. We do not have face-to-face/online meetings due to the size of the group.
- Members read the main book and discuss the topics/exercises in the Proof-Based Math Readings Discord .

# 3 Resources

## 3.1 Main Book and Main Book's Playlist

**Bayesian Econometrics - Gary Koop (2003)** is our main book for this session because it is well-written and well-structured.

Gary Koop's playlist is our main playlist because his narrative is great.

-  Bayesian Econometrics - Gary Koop (2003)
-  Bayesian Econometrics - Gary Koop (2003, Errata)
-  Bayesian Econometrics - Gary Koop (2003, Playlist)
