# 0 Motivation

- *Proof-Based Math Readings* is a free, independent online reading group where we study the mathematics required for economics master's and PhD programs through an intuitive approach. Active since May 2023.
- This session of the reading group is on *Graph Theory*.

# 1 Prerequisites and Format

- Proof Techniques resources below.
- Please use the  [Application Form](#) to join our reading group; you will receive a response within a week.
- This session takes 12 weeks. We do not have face-to-face/online meetings due to the size of the group.
- Members read the main book and discuss the topics/exercises in the Proof-Based Math Readings Discord .

# 2 Resources

## 2.1 Main Book and Main Book's Playlist

**A First Course in Graph Theory - Gary Chartrand, Ping Zhang (2012)** is our main book because it is well-written and well-structured.

Mikhail Lavrov's playlist is our playlist because the narrative is great.
