0   Motivation

- *Proof-Based Math Readings* is a free and independent online reading group where we study mathematics required in economics master's/PhD programs using an intuitive approach.
- This session of the reading group is on *Linear Algebra.*
- This session is dedicated to Sheldon Axler's lovely cat, 🐱 Moon, who passed away in August 2023.

1   Prerequisites

- CGPA: 3.00/4.00
- 📕 Book of Proof - Richard Hammack (3.3 Edition, 2022)
- ▶ Linear Algebra - Gilbert Strang (2005)
- Please use our 🔗 Application Form to join our reading group anytime.
- Applicants will be informed about their application results within a week via email.

2   Format

- This session will last 12 weeks.
- We will discuss the topics/exercises that we struggle with at 🎮 Proof-Based Math Readings [Discord].
- We will not have face-to-face/online meetings due to the size of the group.
- Members are expected to read the chapters, and watch the chapter videos from the book's playlist.

3   Resources [All are open-access]

3.1   Main Book and Main Book's Playlist
